

On Tuesday, June 15, 2010 at 2:00 p.m. in room 2154 of the Rayburn House Office Building the Subcommittee on Federal Workforce, Postal Service and the District of Columbia will hold a hearing entitled, "Lead Exposure in D.C.: Prevention, Protection, and Potential Prescriptions."

The upcoming hearing will take a broad, prospective look at how the District and federal governments can reduce exposure of D.C. residents, particularly infants and other children, to lead in the city's water and lead from other sources, and what steps, if any, should be taken to identify and assist those previously exposed to lead during the District's lead-in-the-water crisis from 2000-2003.
